PROFESSIONAL SUMMARY

I am a Front-End Developer with over 10 years of experience crafting website components using a diverse range of technologies. I have a proven track record of optimizing websites, designing SEO-friendly pages, and creating AMP alternative pages for optimal mobile user experiences. I am proficient in creating both accessible components and bespoke, reusable ones. I am an outcome-driven professional with strong analytical, leadership, and decision-making skills. I am committed to team efficiency and have a proven history of delivering valuable, efficient, and budget-conscious projects.
